

THRILLING RESCUE OF 23 MAROONED PERSONS IS MADE

Were on Barren Island
Five Days; Four
Still Missing

(By The Associated Press)
SAULT STE. MARIE, Mich., Dec. 18.—After being marooned for five days on the barren Lizard Island in Lake Superior, with the temperature ever hanging well below the zero mark, and apparently without food, 23 of the 27 missing persons from the ill-fated tug Reliance have been rescued by the tugs Gray and Favorite according to a meager wireless despatch received here this afternoon from the Gray.

Fate of the remaining four missing persons was not revealed in the despatch. Search for them is being continued. Those rescued include Captain D. A. Williams, master of the Reliance; Captain John McPherson of the Booth Fisheries, a passenger on the craft, still is missing. The message mentioned no other names.

Hope of finding any of the missing persons alive virtually was abandoned here earlier in the day when the Gray reported the finding of two battered lifeboats from the Reliance. It is now assumed the boats were washed away from the island after the marooned men had landed.

The hardships suffered by the band during their five day imprisonment will, it is believed have become new history on the lakes. When they left the sinking tug none of the men had food, fuel or firearms. The ice on which they landed is practically barren and uninhabited. It is believed there are a few huts left by Indians and trappers in past seasons.

It will probably be late tomorrow before the tugs can return to this port the rescued, because of the ice in Lake Superior.

Physicians and medical supplies with food and fuel, were taken aboard the rescue tugs here.

Gamble with Fate.

The wrecking of the Reliance that occurred off the Lizard Islands was the result of a gamble with fate on the part of those aboard the tug. After trying to run a sheltered cove for three days in the hope of riding out that storm that was sweeping the lake Captain Williams found his supplies of food and fuel almost exhausted. The Lake mariners elected to tempt fate and breast the blizzard rather than chance death from starvation. Four hours after the anchor had been hoisted the Reliance was dashed against the rocks and her wheel disabled. The craft filled rapidly. Just before the wireless was put out of commission the operator flashed a single call for help. It was this call received here, that instigated one of the most thrilling rescue attempts in the history of the lake.

All those on board took to the life boats as the tug began to settle beneath their feet. Seven of the thirty-six aboard reached safety Saturday night after a battle against the waves and a sixteen mile trek over a white wilderness. Two others, Mr. and Mrs. John Harten, cooks, were left at a wayside station when the woman became exhausted and had to be carried four miles thru the snow drifts.

The rescue tugs had made two previous attempts to reach the side of the Reliance but were beaten back by the gale.

Those aboard the Reliance included the Captain, thirteen members of the crew and twenty-two passengers.

SIX SEEKING THE SPEAKERSHIP OF ILLINOIS HOUSE

Ralph E. Church of Evans-
ton Enters the Lists
Monday

(By The Associated Press)
SPRINGFIELD, Ill., Dec. 18.—Avoiced candidates for the speakership of the Illinois house of representatives for the coming 53rd session were brought up to six today with the formal announcement of Ralph Church, Republican of Evanston.

In a letter to members announcing his candidacy, Church attacked the method of rushing bills thru during the final few days of the session declared that the closing days of our last session were well "high disgraceful."

Members of the house who are seeking the position in addition to Church, are:

Norman G. Flagg, Moro; A. Otis Arnold, Quincy; Otto Sonnenman, Carlinville; Charles Baker, Monroe Center; Charles MacMillan, Salem. G. A. Dahlberg, speaker at the last session probably will be a candidate but he has not yet announced. The names of Homer Tice of Greenville and David Shanahan of Chicago, dean of the house also are mentioned.

With the opening of the general assembly 17 days away, members are visiting the capitol to get into touch with the situation and discuss prospective legislation with Governor Small and other officers of the state government.

In asking members to support him for an "efficiency program," Mr. Church pointed to the fact that 200 bills passed on the last legislative day of the last session.

"The last day was a continuous succession of roll calls," he said. "Of the 361 bills which passed both houses during the entire session of almost six months, 115 were passed during the last 72 hours."

Among procedure reforms suggested by Mr. Church is the placing appropriation bills on the desk of each member in final form at least days before being acted upon.

APPROPRIATION BILL FOR NAVY PASSED MONDAY

House Pays Tribute to
Chairman Kelly Dur-
ing Reading

(By The Associated Press)
WASHINGTON, Dec. 18.—The National appropriation bill carrying a request that the president negotiate with foreign powers relative to limiting construction of war craft under 10,000 tons was passed today by the house.

The bill which carries a total of \$325,000, stood up precisely as framed by Chairman Kelley's sub-committee and provides for an enlisted naval force of 80,000, the same as fixed last year.

There was a flurry of talk over the provisions under which the president is asked to negotiate with Great Britain, Japan, France and Italy, but an effort to change the language was dropped in the face of overwhelming opposition to any alteration.

Just before the final paragraph was reached the house halted for 20 minutes to pay tribute to Chairman Kelly, who retires next March. Speeches were made by Representative French, Republican, Idaho, a member of the sub-committee; Chairman Madden of the appropriations committee; Mr. Mondell, Mr. Byrnes, Mr. Oliver and Representative Garrett, Tennessee; the Democratic leader. When Mr. Madden concluded everybody rose but Mr. Kelley. Summing up the testimonials Mr. Garrett declared the country had a profound admiration for Mr. Kelley's character, ability and labor and that the country was indebted to him for his services in recent years in framing the navy bills.

SENATE WRANGLES ALL DAY MONDAY WITHOUT RESULT

Sen. Williams Scores
Both Shipping and
Credit Bills

(By The Associated Press)
WASHINGTON, Dec. 18.—Supporters of the administration shipping bill and members of an alliance between opponents of the measure and proponents of the Norris agricultural financing bill struggled for dominance in the senate today without definite results.

The issue which was before the senate thruout a six hour session was embodied in the motion of Senator Norris of Nebraska, chairman of the agriculture committee and a leader in the Progressive bloc to lay aside the ship bill and to take up the senator's own measure to create a government capitalized agency to buy and sell farm products. The question was the subject of numerous conferences and several speeches, including the maiden address of Senator Brookhardt, Republican, Iowa.

An attempt was made soon after the session began to obtain unanimous consent for a vote on the motion tomorrow and appeared on the point of success, but a wrangle over detail blocked the way. Renewed efforts are to be made tomorrow with prospects favoring a vote before adjournment.

Demand that the shipping bill be laid aside was made by Senator Brookhardt, Senator Borah, Republican, Idaho, and Senator Fletcher of Florida, leader of the Democratic organization.

Senator Ransdell, Democrat, Louisiana, in a four hour speech urged prompt passage of the legislation, and Senator Jones, Republican, Washington, in charge of it, stood firmly on his determination to keep the bill before the senate until rural credits legislation could be reported to the senate by the banking and currency committee. Chairman McLean of this committee announced such action might be expected early next week.

One senator—John Sharp Williams, Democrat, Mississippi—announced he would not vote either way on the question because, he said he would consider himself "disgraced either way."

He said he had not thought "it was within the realm of human ingenuity to frame a bill worse than the ship subsidy bill," but that Senator Norris by his measure "had accomplished the impossible."

Senator Borah urged casting aside of the ship bill in favor of agricultural relief as a matter of justice, declaring that "ship subsidy can wait" until the next session of congress, but that the American farmer with an other season's approach could not wait. He warned his Republican colleagues that they had trifled long enough with the seven million majority and asserted that if rural credit legislation and measures to relieve the agricultural situation were slighted at the present session of congress the Republican party in the next election would not have enough votes to count.

It was said that Representative Cannon of Illinois during his visit to the white house on Saturday, when he was accompanied by Representative Steadman of North Carolina, endorsed Mr. Sisson, with whom he had served many years in the house.

Eye Witness Tells of Herrin Massacre

(By The Associated Press)
MARION, Ill., Dec. 18.—Dr. O. F. Shipman testified today at the trial of five men in connection with the Herrin riots that he had been an eye witness of the shooting down of six unarmed men by a mob in front of the Herrin Cemetery the day of the killing.

Two other witnesses, Mr. and Mrs. George Nelson, testified that they had seen a crowd of armed men drive 30 or 40 unarmed prisoners from the "strip" mine, where the trouble started past their farm near the mine. R. O. Greer, former mayor of Herrin, also testified he had seen the prisoners brought from the mine and that there were 48 in the group escorted by 25 or 30 armed men. He said there were several hundred spectators about the mine and that he saw automobiles from Missouri, Indiana, Kentucky and other states.

Dr. Shipman testified that he had followed the mob and its bleeding, pleading captives a mile and a half thru the streets of Herrin to the cemetery, that there had been a volley of shots and that he saw the six prisoners drop.

The doctor said that a man he could not identify stood over the prostrate victims and emptied the contents of two revolvers into their bodies. He swore that Joe Carnaghi, one of the defendants had fired into the prostrate body of Howard Hoffman of Huntington, Ind., one of the 20 non-union men killed during the riots, and that blood had spurted a foot into the air as the bullet struck.

"Oh men what are you doing," the witness quoted Hoffman as saying.

"If you have ever said your prayers, say them now—d-d you for you won't have much longer," he testified an unidentified leader of the mob told the prisoners just before they were shot down.

Names Two Defendants
Asked if he could tell who did the shooting, Dr. Shipman named Joe Carnaghi and Leva Mann, two of the defendants now on trial and Percy Hall and Jim Galligan, who have been indicted but who are not defendants in the present case.

The name of Peter Hill, another of the defendants who was married in jail tonight to Anna Campbell, 18, of Marion, was brought into the evidence, for the first time today.

Hiller was the fifth and last defendant who has been mentioned in the testimony as having been seen with guns during the rioting.

George Nelson was the first witness to name Hiller, whom he said he had seen among the crowd at the mine in the morning, but without a gun. Dr. Shipman testified he had seen Hiller that night with a gun strapped about his body and that Hiller had said to him that some of the prisoners had got away and that he was bound back to the mine to search for them. Shipman also said he had seen Leva Mann step out of the mob at the cemetery after the shooting wave a gun about his head and declare:

"Come on boys, we've got two more down here."

**DISCUSS PROBLEMS
OF PROHIBITION AT
THE WHITE HOUSE**
Views Between President
And Governors Are
Exchanged

(By The Associated Press)
WASHINGTON, Dec. 18.—Problems of prohibition enforcement were discussed informally today at a white house conference between President Harding the federal departmental chiefs directly interested in the subjects and governors of 14 states.

There was no statement from the white house as to the results, but it was indicated discussion revolved upon the question of how the several states could best cooperate with the federal government in executing the terms of the prohibition amendment. It was indicated that another meeting might be called early in the coming year and the subject canvassed more thoroughly.

At the luncheon, during which the views of the guests were sought on prohibition were in addition to the president:

Vice-President Coolidge, Attorney General Daugherty, Secretary Mellon, Prohibition Commissioner Haynes, Governors Cox, Massachusetts; Ritchie, Maryland; Trinkle, Virginia; Hartness, Vermont; McCray, Indiana; Kilby, Alabama; Hyde, Missouri; Preuss, Minnesota; Olcott, Oregon; Allen, Kansas; Morgan, West Virginia; McKelvie, Nebraska; Davis, Idaho and Campbell, Arizona.

"In many cases," Commissioner Haynes declared after the meeting, "the reports of the governors were of an encouraging nature. Numerous instances of lack of cooperation were pointed out; many instances of the inadequacy of federal forces were suggested."

Governor Allen said tonight the conference had indicated clearly that all the governors present whose states have enforcement laws were in entire sympathy with rigid enforcement. Governor Cox of Massachusetts, one of the two states lying outside this classification was quoted as of the opinion that more money and more honorable men, were necessary.

Since the law was on the statute books, he held, it must be enforced. The majority of the people of Maryland—the other state without special enforcement laws—believe the Volstead act is impossible of enforcement in the state according to Governor Ritchie.

"Our people in the main regard it as an unnecessary and drastic federal infringement of their state and personal rights," he declared in a statement issued after the conference.

SEN. BROOKHEART IN MAIDEN SPEECH FLAYS SHIPPING BILL

Urges it be Laid Aside
for Norris Agricultural
Bill

(By The Associated Press)
WASHINGTON, Dec. 18.—Senator Brookhart, Republican, Iowa making his maiden speech today in the senate declared the determination of the president and administration leaders to keep the shipping bill before congress until passed was "a filibuster against the sovereign voice of the people."

He urged passage of the pending motion to lay aside the ship bill in favor of the Norris agricultural financing bill.

"I am against any sort of filibuster," he asserted. "Accordingly I am going to fight this filibuster against the people until this congress ends next March 4."

The Iowa senator attacked the transportation act of which his colleague, Senator Cummins, was the author, declaring that under the bill the railroads were permitted to levy an excessive burden on the country of hundreds of millions of dollars a year.

"The law should never have been enacted," he added. "The railroads should have been turned back by the government to their owners under the old law. A railroad manager said to me that would have meant bankruptcy to many roads. Perhaps it would to some, but nobody came along with a special privilege law to keep the farmers out of bankruptcy."

A similar situation and a similar propaganda is now developed in reference to shipping. The principal difference is that the government did not own the railroads, but it does own more than ten million tons of shipping.

"The first demand of this propaganda is that American shipping must sail under the American flag. It wraps itself in the garb of superpatriotism. It breathes the inference that there is now no flag and the present situation is un-American and unpatriotic. It is a strange psychology when the minds refuse to see before their very eyes the flag nailed to the mast head of every ship by the hand of the government itself. And it is more strange and more weird if our patriotism shall not become genuine until it is garnished and supported by 'unfurling the yellow flag of Wall street above the Stars and Stripes.'"

"I believe the most patriotic ship is the government ship, manned by Americans and operated under the American flag in its own right. No American will complain of a small deficit when patriotism is at issue. But in the present case the deficit is not a loss to the American people and especially to the American farmer."

DISCOVER STRANDED PLANE IN MOUNTAINS

(By The Associated Press)
SALT LAKE CITY, Dec. 18.—Pilot Paul Scott, one of the mail flyers searching for Pilot H. G. Rooster, returned to Woodward Field at 4:30 o'clock this afternoon and confirmed a report made by Pilot Lester F. Bishop earlier in the day that an airplane half buried in the snow could be seen on Porcupine Ridge about 12 miles northeast of Coalville, which place is about 37 miles east of Salt Lake. Scott said that he flew low over the stranded plane several times and believes that he saw the flying suit of an aviator lying close to the ship.

A report from Morgan, Utah, said an airplane had been found north of there and belief was expressed by air mail officials that one of the scout planes despatched in search of Rooster had met with a disaster. Pilot Kenneth Unger is known to have been seen last in the vicinity of Morgan.

Cardinal KELLER'S ACTION PUTS COMMITTEE UP IN THE AIR

Judiciary Committee De-
cides to refer to Sub
Committee

(By The Associated Press)
WASHINGTON, Dec. 18.—The refusal of Representative Keller, Republican, Minnesota to respond to a subpoena requiring him to give under oath the information upon which he based impeachment charges against Attorney General Daugherty has created a precedent of such possible far reaching importance that the house judiciary committee decided today to refer the whole matter to a sub-committee for investigation.

Meantime the hearings on the charges Mr. Daugherty will go forward, the committee summoning such witnesses as it can find without the aid of Mr. Keller, who dramatically withdrew from the proceedings Thurs day after filing with Chairman Vollsted a statement charging that there had been a "bare faced" attempt to "white wash" the attorney general.

Chairman Vollsted plans to appoint within a day or two the sub-committee, which in the language of a formal motion adopted today by the entire committee is "to make an investigation of what action, if any should be taken in connection with the conduct of Mr. Keller towards this committee and towards the house of representatives."

The sub-committee will be composed of both Democrats and Republicans, Mr. Vollsted said.

Lawyers in Quandry
Admittedly, Mr. Keller's announcement that in refusing to obey the subpoena, he was standing on his rights as a member of the house, has left a majority of the 21 lawyers on the judiciary committee in a quandry as to just what the power of the committee and the house is in the premises.

The situation is without parallel so far as they now can determine and since whatever action is decided upon will constitute a guide in the future, there is a disposition to attack the problem with great care and deliberation. The situation was canvassed fairly fully at an executive session today lasting for more than an hour and a half, but there was such a diversity of opinion that agreement upon a definite line of action was regarded as hopeless, at least until a study of the legal authorities had shed more light than thus far has been brought to bear.

On the basis of the information now at hand the members are fairly convinced that Mr. Keller cannot be made to appear before the committee to testify. They also are of the opinion that the house itself cannot enforce compliance with the subpoena with the subpoena as could as court in a similar case.

**LEFFINGWELL TELLS
BANKING COMMITTEE
OF FARMERS' NEEDS**

Enough Credit But There is
Inadequate Distribution

(By The Associated Press)
WASHINGTON, Dec. 18.—There is a sufficient amount of credit in this country to meet all legitimate demands of the farmers, but there is an inadequate distribution to meet such demands, the senate banking committee was told today by R. C. Leffingwell, former assistant secretary of the treasury, during a hearing on farm credit proposals.

Existing banking facilities should be adjusted to meet the requirements of the situation he asserted but new instrumentalities should not be created which would add new burdens to be borne by the tax payers and put the government into the banking business.

The present system of marketing and financing agricultural products is susceptible of material improvement, Mr. Leffingwell stated. Much can be done toward organizing the business of the farmers of the country in such a way, he said, that they will have better security to offer in making applications for loans.

"If the bankers and the farmers have not quite hit it off," he stated, "congress should see if the needs of the one cannot be adjusted to meet the requirements of the other."

STILL SEARCHING PERPETRATORS OF DAYLIGHT ROBBERY

Combing Colorado for
Bandits Who Se-
cured \$200,000

(By The Associated Press)
DENVER, Colo., Dec. 18.—Every peace officer in Colorado tonight is combing the highways leading from Denver in search of the masked bandits who this morning shot and killed Charles Linton, guard of the Denver branch of the Kansas City Federal bank, stole \$200,000 in paper currency and escaped after waging a fight with armed guards on duty at the United States Mint.

The money was being transferred from the mint to the treasury truck of the reserve bank standing at the curb and was in fifty packages of \$4,000 each. All of the money was in \$5 denominations.

Police expect to be aided in their search for the escaped bandits by the fact that one—apparently the leader—was shot seriously if not mortally, by a government guard on duty at the mint as the bandit turned to fire a final shot at the guards. An automobile carrying seven men, two wearing masks and one drooping over the edge of the machine bleeding profusely was reported to police as having been speeding northward out of the city shortly after the robbery.

Police riot cars have been dispatched in pursuit.

Denver police unhesitatingly declared the robbery was the largest and most sensational daylight holdup ever executed in Colorado.

All patrolmen and detectives of the local police department have been armed with riot guns and are being assisted in the search by county and federal authorities.

With sawed-off shotguns, two of the bandits bombarded the front door of the mint as they leaped from their automobile. Fifty government employees summoned by an alarm bell seized shot guns and rushed to the doors or windows of the mint, shooting at the holdup men who returned the fire and at the same time calmly proceeded to load the fifty packages of currency into their own car.

Fusillades of shots ripped thru buildings across the street and spat against granite walls as the guards and bandits exchanged shots.

The four members of the federal reserve bandit crew employed in the transfer of the funds, J. E. Olson, cashier; C. T. Linton, J. Adams and William Havener, had just left the entrance of the mint and were walking toward their machine standing near the curbing when another car containing the bandits drove alongside the wire-enclosed truck.

Witnesses Describe Holdup
According to witnesses two or three men carrying guns leaped from the car and with a shout of "hands up" opened fire on the reserve bank employees. The shooting attracted the attention of guards within the mint who sounded the alarm to other employees and then rushed on the steps of the government building to shoot at the robbers.

Linton according to information obtained by police after the questioning of several eye-witnesses, attempted to throw the money into the grille back compartment of the reserve truck at the bandits command to give it to them and he was shot by the leader. Linton fell to the pavement but managed to crawl to the sidewalk where he lay during the fight.

Linton died without gaining consciousness.

Employees and government guards at the mint were afraid to shoot freely at the bandits for fear that they might kill members of the reserve bank crew. Their work of transferring the currency to their own car completed the bandits re-entered their automobile amid a rain of bullets from guards on the second floor and sped east toward the civic center.

As the car gathered impetus the leader of the highwaymen, standing on the running board, turned toward the government building as tho to fire a final volley at the guards. A he did so Peter Kidinger, a guard at the main entrance, fired with a rifle at the bandit, who was seen to crumple up on the running board and who was pulled inside the car by the driver. Kidinger is positive the wounded the fugitive.

C. OF C. ASKED TO AID IN CAMPAIGN

University of Illinois Wants to Make One Hundred Beauty Spots in Illinois.
The local Chamber of Commerce has been asked by the Art Extension Committee of the Better Community Movement of the University of Illinois to aid in the campaign which the committee is staging, to make one hundred beauty spots in Illinois. Pictures of these spots are to be obtained for the historical exhibit of 1922 landscapes. The exhibit will have a permanent home at the University of Illinois, but will sometimes travel about for conventions and conferences of organizations interested in the artistic development of the state.
Clubs, school and civic organizations, and photographers are sending in views from all over the state and Jacksonville is urged to enter in the contest by sending in pictures of some of the beauty spots in and around this community. The following letter explaining the matter has been received:
"The Committee on Competitions

will conduct a photographic contest for the purpose of selecting and marking one hundred beauty spots in Illinois. Attractive markers will indicate the location of the chosen scenes and signs pointing to them will be placed along the highways. Automobile road maps and guides of Illinois Trails published by Rand McNally and Company, and the Interstate Auto Guide Co., will bear conspicuous markings of the beauty spots, enabling the tourist to select a scenic route of travel thru the State.
"Notification of entry for the contest must be made by January 1, 1923. Mr. O. C. Simonds, landscape designer of Chicago, and Prof. J. C. Blair, head of the Department of Horticulture of the University of Illinois, will assist the Committee on Competitions in the selection of the scenes from the photographs submitted. The chosen views will then be enlarged and placed in a permanent exhibit at the University of Illinois as a historical photographic record of the representative types of beauty of the State of Illinois in 1922.
"Subjects may include trees, flowers, rocks, lakes, streams, hills and general landscapes, and may be submitted by any interested individual, school or chamber of Commerce. Efforts are being made to preserve the native planting and beautiful trees that are adjacent to our public highways, and we believe that much scenic planting will be done in the future when the possibilities of such are shown by photograph. Since Illinois supplies such a variety of native beauty, it is possible for practically every county to be represented in this group.
"It is highly desirable that many of the historical places in Illinois receive the care and planting that will justify them being entered as beauty spots.
"The appreciation of our citizenry for the beauty of the State will be increased, and the possibility of pre-

OBITUARY
John L. German, a well known and highly respected citizen of this county passed away at his home, 746 West North street, Saturday afternoon, at 4:30.
He had been in failing health for four years and at many times was a great sufferer. About seven months ago he underwent a serious operation and for a time seemed much improved and was able to be about his usual duties.
Thursday evening he was taken much worse, Saturday showed improvement and hopes were built for his recovery once more. About 4:30 the end came suddenly and quietly he passed beyond.
The decedent was the son of John and Johanna German and was born August 21, 1860. For many years he had been a resident of this county where he followed the occupation of farming until three years ago, when he retired from active farming and became a resident of Jacksonville. He was united in marriage to Henrietta Man October 30, 1884, in Jacksonville. For twenty-three years they followed the occupation of farming in the Buckhorn neighborhood then he purchased the Richard Combes farm in Lynnville vicinity where they lived until three years ago.
He is survived by his wife and the following children: Ernest German, and Mrs. John Tobin of Lynnville neighborhood, Fred, William and Clarence of this city. Also nine grandchildren, Marie, Louise, John Edward, and Helen Virginia Tobin; Harold, Wilbur, Lewis, Alvin German, children of Ernest German and Mildred German, daughter of William German.

Mr. German was a long time member of Salem Lutheran church. He was a loving husband, a kind father, and an ever helpful neighbor. He was never too busy to lend a helping hand and was happy in so doing. His long suffering was borne with great courage and all times he was hopeful of a better day. Of a genial friendly nature, Mr. German made a wide circle of friends both in this city and throughout the county.
Funeral services will be held Tuesday afternoon at 2 o'clock at the Salem Lutheran church in charge of Rev. Kuppfer. Burial will be in Diamond Grove cemetery.

Brooklyn Church Briefs
Despite the low temperature, Sunday was a record day for Brooklyn. In the morning, the pastor preached on Psa. 63:1 and showed the difference between "Theology and Religion." Theology is speculative and universal. But religion is personal, practical and possessive.
In the evening a joint service was held with the Jacksonville State Hospital. The audience filled the auditorium and overflowed into the Sunday School room. Instrumental music was furnished by a trio, consisting of John Kearns, cello, Miss Luke, piano and Miss Cotner, violin. A male quartet from the hospital, Messrs. Lucas, Haven, Grant and Allen, sang, "Sweet Zion Bells." Mrs. E. L. Hill sang "God Remembers When the World Forgets." The pastor preached on "The Star in the East" and said that the star seen by the Magi is the symbol of Light, Guidance and Sovereignty as exhibited in the career and character of the Christ. This is the first of a series of joint meetings with various philanthropic and educational institutions of the city. This church expects to put on a Christmas program next Sunday evening and a Watch Night program Sunday, Dec. 31.
Committees appointed for the Christmas celebration are as follows:
Program—Mrs. E. A. Garey, Kathryn Randle, Elberta Whitlock, and Louise Sheppard.

The Most Wonderful Story of Mother Love ever Told See
VIVIAN MARTIN
Supported by an Exceptionally Strong Cast, in Ivan Abramson's Tender Story
"Mother Eternal"
"They Call Them Angels in Heaven— We Call Them Mothers Down Here."
The author-director tears the mask from off the face of humanity and shows up the furrows of grief, pain, helplessness; the dumb suffering of the mother who tries to console herself with one fading ray of hope. The direction and playing are faultless. When the mother discovers that she must make the supreme sacrifice the acting of Vivian Martin as the mother can be said to be without parallel. This particular scene is not drawn out. It is short and to the point. We see no maudlin tears. We are not submerged in a thousand "close-ups." The story runs straight and true and causes one to marvel at the self restraint practiced.
Beyond question of a doubt "Mother Eternal" will do more to bring about complete understanding between parents and their children than any other film play or spoken drama yet produced.

MURRAYVILLE TRIMS

I. S. D. BASKETEERS

Murrayville, Dec. 18.—Murrayville defeated the Illinois School for the Deaf 38-20 in a fast game of basketball on the Murrayville floor Monday night. The game was fast on both sides, but Murrayville led all the way. Wright and Wood made many difficult long shots, and Carlson did excellent work on following up shots. Both teams guarded well, and the substitutes that entered played well also. I. S. D. was game and full of fighting spirit all the way thru. According to Coach Robey Burns the game was exceptionally fast considering that the Jacksonville team had had but a week's practice and only one practice contest.

Murrayville will play Chapin at Murrayville Friday, December 22, while the next game of I. S. D. will be with Routt college January 12. Monday's score:

CITY MAIN BREAKS; PAVEMENT RUINED

Men Have Cold, Muddy Job Sunday. Monday and Today Cleaning Up and Repairing Damage—Watchman Hurt.

A broken six inch main on Anna street near South Main St., resulted in badly damaged pavement at that corner Sunday morning, the asphalt being lifted and cracked by the force of the water. Water was turned off of Main street and Anna street mains until the connection between the two could be made tight.

The Anna street main, still closed, will be repaired by tomorrow noon. Superintendent W. H. Cobb said. It took until late Monday morning to get to the break, pavement, mud and water hindering the work.

A section of the Main street pavement which was ruined was removed, and a motorist ran into the hole Sunday evening in spite of lights and a watchman, John McGhee, of the Railway and Light company. McGhee suffered minor bruises.

It may be some time, due to the weather, before the pavement can be properly repaired, and it will be necessary for motorists this winter to be careful in driving over the pavement in this place.

Mrs. Addie Fox was in from Sinclair Monday.

ZUPPKE REPLIES TO HOWARD JONES

CHAMPAIGN, Ill., Dec. 18.—Coach Zupke today declared the Illinois Nebraska football game next year will not be changed in form because of the agreement to exchange formations two weeks before the game.

"We shall exchange all the formations to be used, but not the plays to be used," Zupke said in answer to Coach Howard Jones, of Iowa, who has declared the proposed plan a freak and impractical.

"With a knowledge of the formations only, there will be a large variety of plays which will be used and the game will be one which will take as much strategy as any first game and more than games which have been planned ahead by scouts."

CONFERENCE HAS NOT REACHED DECISION

(By The Associated Press)
LAUSANNE, Dec. 18.—The sub-commission of Near East conference which is considering the various plans for regulation of the Turkish straits adjourned this afternoon until tomorrow without having reached any decision.

The essential difference between the Turkish and allied plans for control of the straits concerns the question of the radio between foreign fleets and those of the Black Sea countries.

The allies desire that each power have the right to send thru the straits as many ships as the greatest Black Sea power, or in any event three warships.

The Turks as a sop to Russia propose that the total strength of foreign fleet shall not exceed the strength of the most powerful fleet in the Black Sea. With this restriction the Turks endorse the allied plan for the right of each foreign nation to send three light warships thru provided they do not stop in the straits or at Constantinople in wartime.

The plan presented by M. Tchitcherine for the regulation of the Turkish straits was given out in summarized form.

REDEMPTION BLANKS FOR STAMPS EXHAUSTED

Postmaster Dunlap Has Sent to Washington for Additional Supplies—Value of Stamps Filed is \$271,150.

Postmaster R. I. Dunlap made it known yesterday that during the past eighteen days 54,230 war savings stamps have been handled by the local postoffice, with a maturity value of \$271,150. Because of the large number of stamps that have been presented for redemption and exchange, the supply of necessary blanks has been exhausted.

An effort without avail has been made to secure additional blanks from St. Louis or Chicago and the additional supply from Washington will not arrive until next Monday. It will not be possible to handle more of the stamps at the postoffice this week.

However, holders of certificates which have maturity in 1923 are requested to present these securities as soon after Christmas as possible. They will immediately be forwarded to the federal reserve bank so that payment can be made just as quickly as possible.

There is a measure of good fortune in the fact that local blanks have been exhausted because the holiday rush at the post office is now under way and it would be almost impossible for the regular staff at the postoffice to take care of additional business which the applications for the redemption of certificates or stamps would mean.

PROBATE COURT.

COUNCIL MAY HOLD SEMI-MONTHLY SESSIONS

Will Consider This Plan for Coming Year—Garbage Disposal Discussed Monday Night.

It is quite likely that during the coming year the city council will hold semi-monthly sessions instead of meeting every Monday night. At last night's session Mayor Crabtree suggested that he found in most cities this was the custom and that he believed the semi-monthly sessions would be sufficient. The councilmen seemed to look with favor on the proposal but will make a decision at a later time.

Last night in addition to the mayor and city clerk, Aldermen McGinnis, Loneragan, Chapin, Harmon, Sorrells and Rowe were present.

Alderman McGinnis, chairman of the fire committee, reported the accident resulting in a broken leg for Fireman French. The alderman also made mention of the fire at the Fox home and said that the statement that the fire plug was out of order was in error.

Most of the time of the session was spent in discussing the garbage disposal question. It was determined that members of the health committee will meet with Messrs. Clark and Rook Wednesday evening for conference. These men made the lowest proposal for the handling of the garbage and the council is anxious that they understand the facts about the work which is to be done.

Dr. Brokaw told of the method of handling the garbage at Jackson, Mich., which has worked satisfactorily for two or three years. In that city persons pay \$4 a year in advance or 50c a month for the service rendered, and the co-operation between the city and citizens results in the plan working out quite successfully.

It was the belief of the council that a garbage inspector here would go a long way toward more satisfactory results.

PLUMBING BOARD MET FOR ORGANIZATION

The Jacksonville plumbing board met Monday night, following the city council session, for organization. Dr. R. V. Brokaw was elected chairman, the other members being J. M. Deatherage and Bert Wyatt. J. J. Keefe was named as inspector and Jewell E. Scott is to serve as secretary of the board.

Provisions were discussed with reference to the examination for master and journeyman plumber. This examination will probably be held early in 1923. The date will be announced at a later time and complete particulars given with reference to the examination.

A statement will probably also be made at that time with reference to the policy of the board.

C. P. & ST. L. COMMITTEE WILL MEET IN FEW DAYS

Will Prepare Morgan County's Part in the Case Before the Illinois Commerce Commission.

The Committee of Jacksonville citizens in charge of the C. P. & St. L. abandonment case will meet within the next few days to prepare Morgan county's part of the people's case in the hearing before the Interstate Commerce Commission, to be held in Springfield during the next two weeks.

The committee will attempt to get data on the following matters: A statement from Morgan county as to the population of the county, the area in square miles, dependent wholly or in part, on the C. P. & St. L. transportation service; statement giving a detailed description of each industry in Morgan county, elevators or mines, that would suffer in case of the abandonment of the road; statement from the different communities as to how their markets would be affected in consequence of the proposed abandonment; a statement of the land and town property values and their depreciation in case of the suspension of the operation of the road; a statement of the volume of additional traffic that might be enjoyed by the railroad over its facilities ample to accommodate increased patronage; statement as to the public grants of money to the railroad during or since its construction.

The committee has a great amount of work to do before the hearing is held and for this reason it is imperative that the investigations be commenced at the earliest possible moment.

CAR OF ROODHOUSE MAN IS OVERTURNED

White Hall, Dec. 19.—Wesley Utt, while returning to Roodhouse from White Hall about 11 o'clock Saturday night on the detour road, met with an accident that resulted in his car overturning on the snowy highway in descending a steep grade about midway between the two cities. Mr. Utt was accompanied by two ladies, and all the occupants escaped without injury. Mr. Utt is a C. and A. engineer, but he did not think of sending out a flagman until another car started sliding down the same hill and crashed into the Utt car, it being impossible to control a car after the snow became packed. Still the damage to the cars was not great, and there was no personal injury.

Dispatcher G. A. Green was returning to White Hall from the opposite direction, and by this time Utt had begun flagging against oncoming cars. Green was followed by G. C. Fanning. Green started back to another route, and in backing down a grade lost control of his car, but managed to steer it along the beaten path without a "derailment," and came on to White Hall to report the double accident. The Utt car stood with the wheels up, and the top and windshield were demolished.

PRICES OPEN STRONG;
REACTION SETS IN

NEW YORK, Dec. 18.—Prices opened strong in today's stock market but a decided reaction set in later upon announcements of the failure of a large southwestern stock exchange firm and a cut in the Great Northern preferred dividend placing it on a five per cent annual basis instead of 7 per cent a rate which had been paid without interruption since 1890.

There were a few notable exceptions to the downward trend but the declines in Standard issues ranged from 1 to 4 points.

An unusually large volume of low priced oils were thrown onto the market after the failure, several thousand shares being for the account of the insolvent firm. These included Hocks of Sinclair, Skelly, Maryland, Phillips Petroleum, Invinible Oil and Texas company nearly 100 shares of these companies changing hands during the day.

The net losses in these issues were chiefly of a reactional character. Foreign exchanges were weak on publication of European dispatches that little credence was being placed there on the possibility of an international loan raised for Germany.

The Liberties were fairly strong. The advances were First 4 1/2 12c on \$100; Third 4 1/2 8c; Unrecovered Victory 4s, two, and New 4 1/2 6c.

CROP DAMAGE FEARS
SETS PRICES SOARING

CHICAGO, Dec. 18.—Renewal of
crop damage fears as a result of the
cold wave led to soaring prices in the
wheat market today. Closing quota-
tions were unsettled 1 1/2 to 3 1/2c net
higher with May \$1.25 1/2 to \$1.25 1/2 and
July \$1.16 1/2 to \$1.16 1/2. Corn gained 1 1/2
to 1 1/2c, oats 1 1/2 to 1 1/2c and provisions
10 to 35c.

Except for transient reactions due
to profit-taking, the course of the
wheat market was upgrade from the
outset and high price records for the
season which have been frequently
broken of late were again reached.

Lack of adequate snow protection
in much of the winter wheat ter-
ritory was an evident source of danger
in connection with sub-zero tempera-
tures and the buying thus stimulated
was given further impetus owing to
guesses that the government report
issued after the close would be more
bullish than proved to be the case.

Decrease of more than 6,000,000 bu-
shels in the amount of wheat on
ocean passage was given a bullish
construction in some quarters, the
inference being drawn that foreign
buyers would need to increase their
purchasing in the near future.

Rumors were current that shorts in
the December delivery had effected a
private settlement on as much as
4,000,000 bushels. The action of De-
cember failed to indicate that such
reports were correct. Assertions that
1,000,000 bushels of wheat had been
taken for Europe were also current
but unverified. Corn and oats, as
well as wheat, touched new high top
prices for the season notwithstanding
that arrivals of corn here were light
and that the big receipts were to fill
overdue contracts.

Provisions derived their strength
chiefly from the upward swing
values for hogs and grain.

CHRISTMAS VESPER CONCERT AT I. W. C.

Delightful Program Carried Out Sunday Afternoon in Music Hall at Woman's Club.

The weather man and his cohorts collaborated during Saturday night to provide a perfect outdoor feature of the annual Christmas vesper service in Music hall at the Woman's College Sunday afternoon. The people who completely filled the hall came noisily over fresh fallen snow, and slipped among the college elms to the entrance like black spectres in the forming twilight.

Within was warmth and light and cheer, and the simple effective Christmas greens gave the final outward evidence of the nature of the program.

The program was given by Mr. Henry Ward Pearson, organist; the Glee club, Madame Toft-Colard and Miss Powell, who read a beautiful story portraying the benevolence of a true observer of Christmas.

Mr. Pearson opened the program with five short organ numbers. The Glee club entered in processional and sang twice at different stages of the program.

Madame Colard appeared in an ensemble number, singing the Ave Maria by Gounod, and appearing with here were Miss Sapio, pianist, Miss Marshbrough, violinist, and Mr. Pearson, organist.

The short program exactly fitted the time and place. On all sides after the hour had passed were heard words of praise and appreciation of the offering of the afternoon.

COL. SMITH TO ATTEND NATIONAL MEETING

Conference of Superintendents of Deaf Schools at St. Augustine, Fla. Late in January.

Col. O. C. Smith, managing officer of the Illinois School for the Deaf, will attend the twelfth Conference of Superintendents and Principals of American Schools for the Deaf at St. Augustine, Fla., January 29-Feb. 1, as the representative of the local school.

It is possible that he may be able to fall in with the suggested plan of visiting several schools for the deaf enroute. One feature of the meeting will probably be a discussion of the relative merits of oral, manual and combined methods of teaching. Some educators of the deaf advocate one single method, manual or oral, while many, including the local management, make use of both systems in combination.

CITY PLAN COMMISSION NAMED BY MAYOR

Well Known Citizens Chosen to Study Problems, Relating to Jacksonville's Growth and Development.

Mayor E. E. Crabtree yesterday made announcement of the membership of the city plan commission. The members of the commission are Dr. J. R. Harker, Henry J. Rodgers, Dr. C. H. Rammeikamp, W. C. Bradish, Dr. D. W. Reid, T. W. Beadle, Edward Longergan, Mrs. J. N. Conover, Mrs. J. H. Danskin, Elmer Snyder, Dr. W. P. Duncan, Harrison W. King, Harry M. Capps, Mrs. Dennis Schram, L. O. Vaughn.

It is presumed that the members of this committee will meet at a comparatively early date for organization. The work of the committee will require a long period of time and in the beginning will require a study of local conditions and no doubt investigation as to steps in city planning that have been taken in other cities.

Similar commissions have been at work for a year or two past in Decatur, Springfield and a number of other Illinois cities. Some months ago the chamber of commerce sent a communication to the city council asking that a city plan commission be appointed. The council looked with favor upon the proposal and by motion authorized Mayor Crabtree to select the commission.

J. HERMAN TO HAVE EAST STATE LOCATION

Well Known Merchant Will Occupy Haas Company's Remodeled Building—Haas Firm to Close Local Branch of Business

J. Herman has leased from the Haas Electric Mfg. Co., the double room on East State street that the firm is now occupying. Extensive improvements are being made in the building and in the course of a number of weeks Mr. Herman will occupy it with a millinery and ready to wear business.

The remodeling work which is under way will make the building handsome and attractive and especially well fitted for the business to which it will be put.

The H. Co. has announced that the Jacksonville branch of the business will be closed, as the Springfield wholesale house and will develop the manufacturing of radio apparatus.

BOY BEATS BUSH WITH BUTT OF GUN; SHOT IN LEG

James McManus, fourteen, son of Mr. and Mrs. John McManus, 226 Green street, received a bullet in his right leg Saturday afternoon when his gun accidentally discharged as he was beating a brush pile with the butt to frighten out a rabbit. The wound was not immediately discovered, but when bloodstains told the tale he was taken to Our Savior's hospital, where an X-ray located the bullet so that it could be extracted. He will be laid up for several days.

KU KLUX KLANSMEN VISIT LOCAL CHURCHES

Rev. T. H. Tull at Grace Church Objected to Interruption—Letters Read at Other Churches Express Good Will and Outline Klan Principles.

Knights of the Ku Klux Klan paid visits to several Jacksonville churches Sunday night, following out what seems to be an established custom. Seven hooded Knights paid visits to the First Baptist, Grace M. E. and Northminster churches.

In each instance two of the Knights stood at the church entrance while the other five marched down the aisle to the pulpit and handed the pastor a letter. Rev. A. P. Howells of the Baptist church and Rev. W. E. Spoons of Northminster church read the letters to the congregations and then proceeded with the interrupted service.

At Grace church Rev. T. H. Tull handed the envelope back without opening or reading it. His statement was that he did not think it proper for the Klansmen to interrupt a church service in this way.

Naturally the spectacular visit of the masked men caused some suppression of excitement among the congregations. At the Baptist church one young lady fainted and friends immediately carried her from the building to the open air and she was conveyed to the hospital.

The message read by Rev. A. P. Howells complimented him upon the stand he had taken with reference to the Ku Klux Klan organization and stated that although he was not a member that the Klan recognized in him a friend and appreciated greatly his words of approval.

The letter then went on to enumerate the principles for which the Klan stands. These principles have already been published locally and appear in the literature which is issued by the Klan.

The letter as read by Dr. Spoons was almost identical with that addressed to Mr. Howells and it is likely that the text of the one presented to the pastor of Grace church was similar.
